The cause of the explosion is unknown, and there is no theory that accounts for it satisfactorily. One remarkable feature is the little effect. It is a threatening question in any of the concussion in the immediate event the Conference may superinvicinity; for from what we know of duce. the explosive power of gas, by the accidental ignition of small quantities, there was the material here for an explosion greater than that of Gen. LETTER FROM LEBANON, PA. Annyille-Lebanon Valley Colleg

LEBANON, PA., May 20. EDITORS JEFF :- Thinking that what could write from this place might interest some of your readers, I pen

Leaving Findlay on the morning f the 17th, I came by way of Coumbus, Steubenville, Pittsburg, and Harrisburg to this place. Stopping off, however, at Annville, five miles west of this place, I attended the Annual Meeting of the Board of Missions of the United Brethren Church. It was an earnest, working session of that body of men, and evinced a desire and determination to do a share in the evangelization of the world.

At Annville is located "Lebanon Tell THOUSANDS of People of It!! Valley College," a new and promising institution, under the auspices of the Eastern Conferences of the U B. Church. The Eight-Hour Question Settled.
The following Proclamation from the President was issued from the State Department on the 20th:

A FROCLAMATION.

WHERRAS, The act of Congress approved June 25, 1868, constituted on and after that date, eight hours a day's work for all laborers, work men, and mechanics employed by or on behalf of the Government of the United States, and repealed all acts or parts of acts inconsistent therewith;
Now, therefore, I. Ulysess S. Grant, President of the United States, of hereby direct that from and after this date, no reduction shall be made in the wages paid by the Government, and mechanics, on a count of such reduction of the hours of labor.

In testimony whereof I have here to set my hand, and caused the seal of the United States to be affixed.
